

## Admissions Committee 2020-2021 Annual Report – Submitted by Timothy Curby, Chair

The Admissions Committee began meeting monthly this year after having not met for at least a year. In conjunction with the Organization and Operations Committee, the Admissions Committee considered changes to its charge. The goal was to have a reinvigorated committee that would engage in relevant work. At the end of the fall semester, the changes to the charge were approved by the Faculty Senate.

As it had not been meeting regularly, the committee needed to first understand how admissions work at George Mason. As such, a valuable member of the committee was the Director of Undergraduate Admissions, Melissa Bevacqua. During the spring semester she provided insight into the admissions processes and provided updates on admissions. She also helped arrange for others in the Admissions Office to provide presentations to the Admissions Committee. For example, this year we also heard from the Director of Graduate Admissions as well as the person who coordinates responsible for admissions in the Honors College. Through these efforts, the committee has learned a great deal about the admissions process at Mason and looks forward to this continuing into the future.
